Accessing the GWAZY Account

Access

Live and Demo accounts can be accessed from the login page.

Live Gwazy Account: to enter in to your live account please enter the number and password in the Gwazy Live window. Kindly note that the password is case sensitive.

Demo Gwazy Account: To access demo, just enter the characters that appear under the Gwazy Demo window in to the provided field.

The image shows two side-by-side login panels. The left panel, titled 'GWAZY LIVE', is for 'Client Login' and contains input fields for 'Account Number' and 'Password', a 'Remember me?' checkbox, and a 'LOGIN' button. The right panel, titled 'GWAZY DEMO *', is for users who are 'Not a client?' and offers to 'Try our demo!'. It features a CAPTCHA image with the characters 'RGGRG5' and a 'PROCEED TO DEMO' button.

Recommended browsers

GWAZY is a web-based platform and does not require downloading.

Changing Password

It is mandatory to change password at the first time login.

Users can also change their password at any time after signing into the GWAZY platform. To change password, Users must click on 'Settings' -> 'Account Settings'.

Note: Passwords must be at least 8 characters and contain at least one uppercase character and one numeric character.

Trading in Financial Instruments carries a substantial level of risk and may result in a loss of all invested capital. It may be not suitable for all investors; please ensure that you understand your investment objectives, level of experience, risk appetite and, if necessary, seek advice from an independent financial advisor

CHANGE PASSWORD

Confirm password

Change password

Exiting the platform

To exit from GWAZY, User must click on 'Logout' and then close the tab/window of their browser.

Session Timeout

For security reasons, if the GWAZY account is on standby and no transactions are made during a certain timeframe, this will lead to the end of the session and the User will be logged out.

Platform Sections

Once the User has logged into the GWAZY account, the below sections are available:

The screenshot displays the GWAZY trading platform interface. At the top, there is a navigation bar with buttons for Trade, Reports, Product Index, Trading Terms, Tools, Settings, and Logout. Below this, the account information is shown: Account No. WB00000001, Balance: \$4,951.33, and Investments: \$0.00.

The main content area is divided into several sections:

- WATCHLIST:** A table showing market prices and trends for various symbols. The table has columns for Symbol, Market Price, and Trends. The symbols listed are AUDUSD, CADUSD, CHFUSD, CRUDE OIL, DOW JONES, EURUSD, GBPUSD, GOLD, and JPYUSD.
- NEWS | NOTIFICATIONS:** A list of market news notifications with timestamps.
- OPEN INVESTMENTS:** A table with columns for Ticket#, Entry Time, Symbol, Amount, Description, Entry Price, Target, Monitor, Risk, and Payout. The message "You have no open investments." is displayed in the table.
- EURUSD Chart:** A line chart showing the price of EURUSD over time. The chart includes a target payout of \$200, a current price of 1.36752, and a risk level of 1.36794.
- CADUSD Chart:** A line chart showing the price of CADUSD over time. The chart includes a target payout of \$200, a current price of 0.97182, and a risk level of 0.97.

MAIN MENU

TRADE	Section where trading takes place.
REPORTS	Section containing reports with all the records of the User's account activity.
PRODUCT INDEX	Section that includes specifications on the symbols that are available for trading.
TRADING TERMS	Section that contains the terms on trading with the GWAZY Platform.
TOOLS	Section that contains sources of information on how to trade with the GWAZY Platform.

ACCOUNT DETAILS

ACCOUNT NO.	GWAZY account number.
BALANCE	Figure representing the amount of funds currently available for trading in the User's account.
INVESTMENTS	Figure representing the total amount of funds currently invested by the User as 'Open Investments'.

Trading in Financial Instruments carries a substantial level of risk and may result in a loss of all invested capital. It may be not suitable for all investors; please ensure that you understand your investment objectives, level of experience, risk appetite and, if necessary, seek advice from an independent financial advisor

Platform Overview

WATCHLIST

The Watchlist is a table that includes live market prices, charts and figures on the market for each Symbol that is available for trading.

WATCHLIST GMT: 13:24:43		Return %: Classic-100 ▾	
Symbol	Market Price	Trends	
AUDUSD	0.96185		14 6
CADUSD	0.97008		10 10
CHFUSD	1.1078		11 9
CRUDE OIL	100.975		7 13
DOW JONES	15159.5		8 12
EURUSD	1.36632		13 7
GBPUSD	1.61344		14 6
GOLD	1315.605		8 12
JPYUSD	1.02214		11 9

WATCHLIST

RETURN %	Percentages that can be selected by the User to determine the Payout amount if the Target level is reached.
SYMBOL	Abbreviation used to identify a specific financial instrument that is available for trading on GWAZY. Details on the symbols available for trading can be found in the 'Product Index' section.
MARKET PRICE	Displays the current price of a Symbol.
TRENDS	Display of statistical information regarding the last 20 'Target' levels that were met for each Symbol, depending on the Return % selected by the User in addition to the 21 st live bar which represents the current market direction.

Users must select one of the available Return % options: 25%, 50%, 100% or 200%. This percentage reflects the 'Target' levels.

The bar charts will change accordingly in order to reflect the last 20 'Target' prices that were met based on the specific Return % that was selected by the User in addition to the 21st bar that is live, representing the current market direction of each Symbol.

The numbers next to the blue bars represent the number of UP levels reached and the numbers next to the orange bars represent the number of the DOWN levels reached during that specific period.

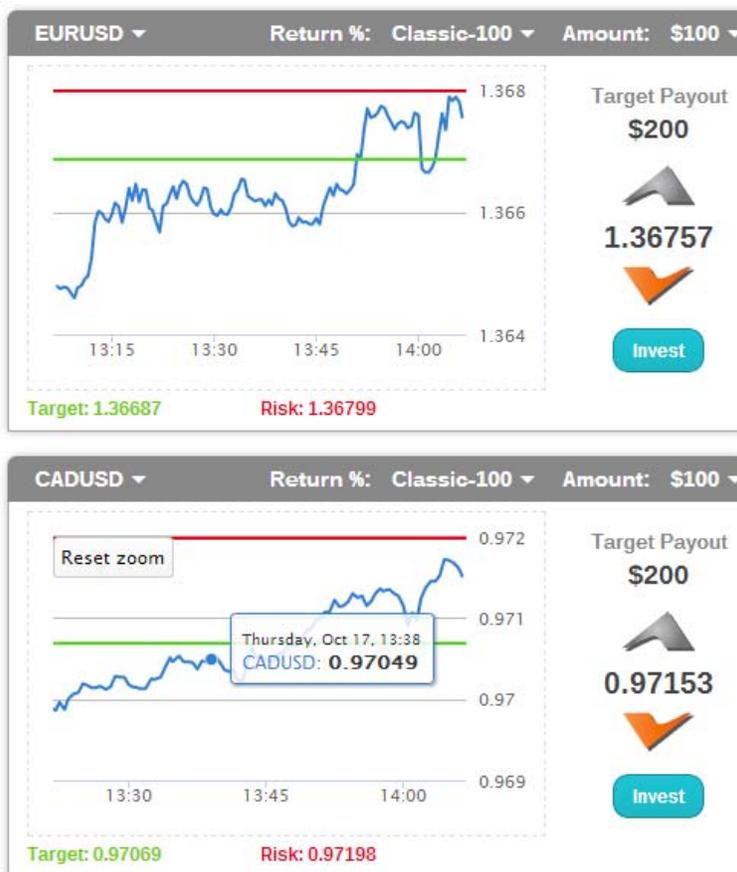

Trading in Financial Instruments carries a substantial level of risk and may result in a loss of all invested capital. It may be not suitable for all investors; please ensure that you understand your investment objectives, level of experience, risk appetite and, if necessary, seek advice from an independent financial advisor

Trading Area

The trading area is where all the action takes place.

Charts displayed in the 'Classic' trading method are based 30 minutes and are updated every 15 seconds.

User can click on the line of the chart to view a specific price as well as zoom into the chart by highlighting a specific range.

TRADING AREA

SYMBOL	Abbreviation used to identify a specific financial instrument that is available for trading on GWAZY. Details on the symbols available for trading can be found in the 'Product Index' section.
RETURN %	Percentages that can be selected by the User to determine the Payout amount if the Target level is reached.
INVESTMENT	Amount that will be invested by the User.
PAYOUT	Payout that the User aims to achieve.
INVEST	Button that confirms the request to open an investment.
TARGET	The level of a symbol's market price where the predetermined Payout for the specific investment will be credited to the User's account.
RISK	The level of a symbol's market price where Payout for the specific investment will be zero.

Note: The base currency on GWAZY is the USD.

Trading in Financial Instruments carries a substantial level of risk and may result in a loss of all invested capital. It may be not suitable for all investors; please ensure that you understand your investment objectives, level of experience, risk appetite and, if necessary, seek advice from an independent financial advisor

'CLASSIC' METHOD

The 'Classic' trading method is based on choosing the direction of a specific symbol, to achieve a 'Payout' based on preset 'Target' and 'Risk' levels.

User must select the Symbol, Return %, Investment Amount and Direction followed by 'Invest' from the trading area.

Step by Step guide on how to trade with the 'Classic' method:

Step 1 **Select Symbol;**

Symbols available for trading include: Foreign Exchange, Precious Metals, CFD Indices, CFD Commodities.

Step 2 **Select Return %;**

Return % options available are: 25%, 50%, 100% and 200%.

Step 3 **Choose Investment Amount;**

Minimum investment amount per ticket: US\$ 10

Maximum investment amount per ticket: US\$ 250

After the Return % and Investment amount have been selected, the 'Payout' that the User is expecting will automatically display on the chart menu.

Step 4 **Choose Direction (Up or Down);**

- o UP if the current market price of a symbol is expected to increase.
- o DOWN if the current market price of a symbol is expected to decrease.

Once 'UP' or 'DOWN' has been selected, the 'Target' and 'Risk' Levels will appear in figures and as lines on the chart. 'Target' and 'Risk' levels adjust with each Return %.

The 'Target level' is displayed with a green colour line.

The 'Risk level' is displayed with a red colour line.

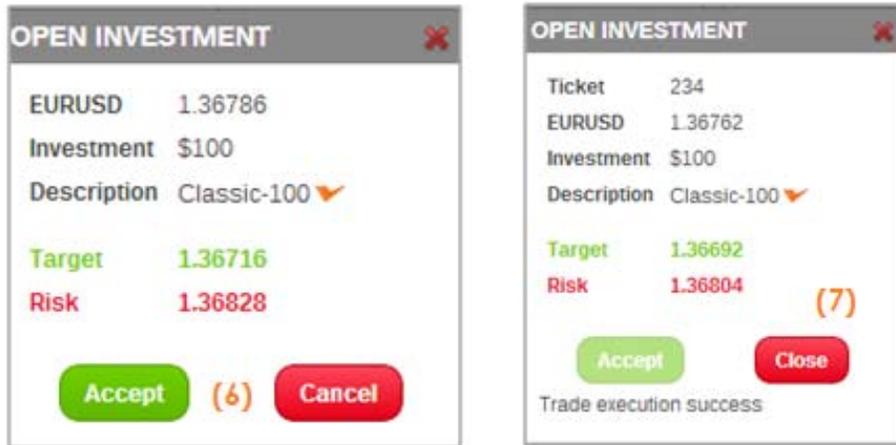

- If UP was selected, the green line will be above the red line.
- If DOWN was selected, the red line will be above the green line.

Trading in Financial Instruments carries a substantial level of risk and may result in a loss of all invested capital. It may be not suitable for all investors; please ensure that you understand your investment objectives, level of experience, risk appetite and, if necessary, seek advice from an independent financial advisor

Step 5 Click on 'Invest'.

Step 6 Click on 'Accept' to confirm or 'Cancel' to decline the request.

Step 7 Press 'Close'

Once an investment has been confirmed, it is displayed under the 'Open Investments' window.

Trading in Financial Instruments carries a substantial level of risk and may result in a loss of all invested capital. It may be not suitable for all investors; please ensure that you understand your investment objectives, level of experience, risk appetite and, if necessary, seek advice from an independent financial advisor

OPEN INVESTMENTS

The 'Open Investments' section displays all tickets that are open.

OPEN/CLOSED INVESTMENTS									
Ticket#	Entry Time	Symbol	Amount	Support	Description	Target	Monitor	Risk	Payout
0	08:37:00	AUDUSD	\$100	\$0	Classic-50	0.90304		0.90228	\$79.09

OPEN INVESTMENTS

TICKET #	Reference number of the Open Investment.
SYMBOL	Name of financial instrument currently traded.
AMOUNT	Amount invested for that specific ticket.
DESCRIPTION	Displays the trading method, Return % and direction that User has selected for a specific investment.
ENTRY PRICE	The price at which an Investment was confirmed as open.
TARGET	Refers to the price that if reached, the open investment will close with the expected return.
MONITOR	Shows where the specific open investment currently stands in comparison to the 'Target' and 'Risk' levels.
RISK	Refers to the price that if reached, the open investment will close with no return.
PAYOUT	Indicates the potential amount that will be credited into the account if the ticket is closed at the current market price.
	Refers to the 'Support' 'Copy' and 'Close' functions.

From the 'Open Investments' section, the User has the option to:

- **'Support' the Open Investment before the Risk level is met**
The 'Support' function enables the User to widen the Risk level, by adding extra funds, while maintaining the same Target Level of the Open Investment.
- **Copy the open investment before the Target or Risk level is met;**
The 'Copy' function enables the User to copy an open investment by creating a new ticket under the same conditions (Investment amount, Symbol, Return % and Direction) but at the current market price.
- **Close the Open Investment**
The 'Close' function allows the User to close an open investment before the 'Target' or 'Risk' level is met.
- **Wait for the investment to close.**
Open investments are closed automatically when the 'Target' or 'Risk' level is met.
- **Wait for the trading session to end.**
All investments with 'Classic' are based on day trading and will close at the end of the trading session.

The symbols available for trading in addition to their trading hours are available under the 'Product Index' section of the platform.

Note: Time displayed on GWAZY is based on GMT time.

Trading in Financial Instruments carries a substantial level of risk and may result in a loss of all invested capital. It may be not suitable for all investors; please ensure that you understand your investment objectives, level of experience, risk appetite and, if necessary, seek advice from an independent financial advisor

NEWS / NOTIFICATIONS

The 'News' tab includes feed for breaking news that may have affected the financial markets.

The 'Notifications' tab includes important information with regards to trading conditions and market information.

News and notifications are updated on an ongoing basis.

Trading in Financial Instruments carries a substantial level of risk and may result in a loss of all invested capital. It may be not suitable for all investors; please ensure that you understand your investment objectives, level of experience, risk appetite and, if necessary, seek advice from an independent financial advisor
